

Gesara

9.15.21 Kim ~~Passy~~ Cures for Diseases 1.

/along with gesara... there is supposed to be release of the cures for cancer and other diseases. Will this happen?

→ The health of planet earth has been in grave danger for some calendar time. This is due to a constant bombarding of various tests performed on the humans which walk upon it... earth. The physical human body is quite resilient and can absorb and re-calculate "poisons". We are saying... the human form is adept to bounce back after being chemically violated. To a certain extent. When too much is input the human form begins to collect in a safe spot so to eliminate it as soon as it can. As more and more bombarding keeps happening and more and more input is stored in the safe spot and the body cannot eliminate it quickly enough... this "safe" spot becomes what we know as... Disease. As this comes to the attention of the white coat regimented thinkers, automatically it is recommended to zap it... cut it... There again violating the human form from healing and eliminating the stored input. When the build up of input is recognised... We say to ~~be~~ you... Encourage it to move out of stagnation thru rubbing the area of

Concern. There are reflex spots throughout the outer body that can easily be rubbed and encouraged --- gentle so not to violently disturb the "safe" spot which sets out too much of the input and has a foul response by the body form --- encourage gently, gently the spot, which now pulls it out of stagnation and allows your body to excrete it ~~and~~ from the safe spot and eliminate it from the body physical. This is a slow but sure process. Slower than the white coat, regimented thinkers promise. Your bodies are not to be in a state of disease for long periods of time. Earlier we explain why this is happening.

The next way to not get to a disease or stagnant system is to use the power of thought... Your thought... Your heart... Your heart helps you find the "safe" spot for holding input. Your heart helps your thought, find the "safe" spot for holding input. Now... Input is not only "poisons" being bombarded upon you... Input is also mental distress, mentally confusing events, emotional bombardment. Constant confusion. Constant chaos, constant unsettling of the moral foundations

every human has. This These are also put into the "safe" spot until the person has time to "sort it out" to "try to make sense of it" and then eliminate it from thought. Now...

Same as poison input thought input causes disease and same process of events go through the motions of Zap... cut... fast.

You are capable of finding this spot that you collect all the dismay and poison in. We suggest you pull in your energy... your personal energy field, allow your heart to scan your physical body and find your spot and let your head thought extract the stored input... let's say take it out and allow your heart to love it away... It is already collected in one spot for you.

Take it slow as not to force it out. Force will spill the input into your body which too causes ill feeling. And there fore takes longer to collect it into one spot again.

You need not wait for machines to help

save you. The machines you ask about already exist my dears. They are withheld due to ego and control. They believe the "common person" should not have the privilege of good health. Only the privileged have that privilege!

There in lies the dilemma you face.

And there fore you also have your own cure. The cure you hold is of tremendous power that the privileged do not want you to know.

But now you do know. Doat you...?

The key is to allow your own body to heal. It requires time. You need not wait for something to happen before you think about healing.

Ask your heart to scan now. Look for any spots the input is being stored. For instance... A female will initially find safe spot storage in the "female areas" of the physical body. As too, A male will initially find safe spot storage in the "male areas" of the physical body. YOU KNOW where you store...

It is also incumbent upon us to advise that not all disease... illness is healable

This is because ... On some Life Paths  
 This is a vital part of their Chosen  
 learning as a human upon planet earth.  
 Therefore, it is a path that can be fulfilled.  
 Yet it need not be as lengthy nor as  
 "painful" as has become normal.

If you can eradicate the holding spot  
 you can. If it is a learning that you  
 planned, it is. You differentiate the  
 cause you apply the cure.

Walk in light and love.

Note Thank you. I can't think of anything to ask.

→ There are items available from the white  
 coat regimented thinkers and from picking  
 from the shelf, that become necessary to  
 slow down the reaction to some events  
 (breakdown in the body). We say for an  
 example - allergic spray to slow down  
 the overproduction of histamines ... the  
 tablet to slow down the heart rate so it  
 doesn't race. These are necessary and  
 this is available. The key ... is to maintain  
 minimal use method. The over use of  
 any thing creates unwanted corrosion.
